AXIM INTERNATIONAL, INC.  
(A Development Stage Company)  
NOTES TO CONDENSED FINANCIAL STATEMENTS  
SEPTEMBER 30, 2013  
(unaudited)

**NOTE 1: BASIS OF PRESENTATION:**

The unaudited interim financial statements of Axim International, Inc. as of September 30, 2013, and for the three and nine month periods ended September 30, 2013 and 2012, have been prepared in accordance with United States generally accepted accounting principles. In the opinion of management, such information contains all adjustments, consisting only of normal recurring adjustments, necessary for a fair presentation of the results of such periods. The results of operations of the nine month period ended September 30, 2013 are not necessarily indicative of the results to be expected for the full year ending December 31, 2013.

Certain information and disclosures normally included in the notes to financial statements have been condensed or abbreviated as permitted by the rules and regulations of the Securities and Exchange Commission, although the Company believes the disclosure is adequate to make the information not misleading. The accompanying unaudited financial statements should be read in conjunction with the financial information of the fiscal year ended December 31, 2012.

**NOTE 2: RELATED PARTY TRANSACTIONS**

From inception (November 18, 2010) to September 30, 2013, the Company president advanced a total of \$ 42,407 to fund working capital needs. That advance bears no interest and is due on demand.

On September 26, 2013, the Company president advanced \$ 5,000 for a payment to extend the contract with Omega Research Corporation until December 31, 2013.

Effective November 26, 2012, the Company entered into a separate Convertible Loan Agreement with its President, under which it borrowed \$50,000. This loan is due December 31, 2014 and does not bear interest. The loan is convertible into common stock at \$10 per share at the option of the lender any time after February 28, 2013. As of September 30, 2013, the loan has not been converted. The Company used the proceeds of this loan to fund the purchase of license rights under the November 26, 2012 agreement with Omega Research Corporation.

**NOTE 3. GOING CONCERN**

The Company's financial statements have been presented assuming that the Company will continue as a going concern. As shown in the financial statements, the Company has negative working capital, has an accumulated deficit of \$ 66,052, and presently does not have the resources to accomplish its objectives during the next twelve months. These conditions raise substantial doubt about the ability of the Company to continue as a going concern. The financial statements do not include any adjustments related to the recoverability of assets and classification of liabilities that might be necessary should the Company be unable to continue in operation.

## Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

Such statements involve known and unknown risks, uncertainties and other factors that may cause actual results, performance or achievements of Axim International, Inc. ("we", "us", "our" or the "Company") to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. The forward-looking statements included herein are based on current expectations that involve numerous risks and uncertainties. The Company's plans and objectives are based, in part, on assumptions involving the continued expansion of business. Assumptions relating to the foregoing involve judgments with respect to, among other things, future economic, competitive and market conditions and future business decisions, all of which are difficult or impossible to predict accurately and many of which are beyond the control of the Company. Although the Company believes its assumptions underlying the forward-looking statements are reasonable, any of the assumptions could prove inaccurate and, therefore, there can be no assurance the forward-looking statements included in this Quarterly Report will prove to be accurate. ### *Description of Business*

We were incorporated in the State of Nevada on November 18, 2010 (Inception) and maintain our principal executive office at 6623 Las Vegas Boulevard, Suite 255, Las Vegas, NV, 89119. Since inception, we have been engaged in organizational efforts and obtaining initial financing. We were formed as a vehicle to pursue a business combination through the acquisition of, or merger with, an operating business. We filed a registration statement on Form 10 with the U.S. Securities and Exchange Commission (the "SEC") on March 10, 2011, and since its effectiveness, we have focused our efforts to identify a possible business combination.

Effective October 3, 2011, we entered into a Licensing Agreement with Omega Research Corporation ("Omega") for exclusive licensing rights for technology relating to the processing of organic waste to marketable by-products via the Advanced Pyrolysis System 200 ("APS200"). We will have exclusive rights to sub-license, establish joint ventures to commercialize, use and process organic waste, and sell related by-products in the territory of Jamaica, WI. We acquired the licensing rights for \$ 50,000. We have the right to purchase from Omega, the APS200 system at a fixed price of \$ 500,000 until December 31, 2013. Subsequent to December 31, 2013, Omega may increase the purchase price at its sole discretion to reflect raising costs of raw materials and labor. We are required to purchase one APS200 by December 31, 2013. Upon purchasing the APS200 system, we are subject to a royalty of 3% on licensee fees received as well as on gross sales from by-product sales generated from the APS200 system. The Agreement was an arms-length transaction.

We have paid two extension fees of \$ 5,000 each and the deadline has been extended to December 31, 2013.

Effective October 28, 2011, we entered into a joint venture agreement with Alpha International Marketing Corp ("Alpha") to establish the APS200 system in Jamaica for converting used tires to biochar and fuel oil. Alpha, as a sub licensee, will be subject to a sub-license fee of \$ 75,000 payable in monthly instalments of \$ 5,000 per month commencing November 1, 2011. As per the Agreement with Omega, 3% of the sub license fee is payable to Omega on a quarterly basis. As additional consideration, the joint venture will remit a 3% royalty fee on all gross sales generated. Alpha is to raise \$ 250,000, half of the purchase price of the APS200 system, and we are to raise the remaining balance.

On March 25, 2013, we entered into an addendum to the joint venture agreement with Alpha. The joint venture agreement previously specified that in the event that we do not raise the \$250,000 for the purchase of the APS200, we would be liable to return license fees received from Alpha. Alpha has waived our potential liability to return any license fees received under the joint venture agreement.

Alpha is in default on their license fee payments and as of September 30, 2013. Amounts owing from Alpha total \$ 11,000. Alpha has not raised the necessary funding for the purchase of the APS200 system totalling \$ 250,000 (50% of the purchase price of the APS200). At this time, we have elected to informally provide Alpha an extension to settle all amounts owed under the joint venture agreement until December 31, 2013 however we will be actively seeking other potential joint venture partners. We are under no obligation to establish a joint venture business given that Alpha has defaulted on its payments.

Effective November 26, 2012, we entered into a 2<sup>nd</sup> Licensing Agreement (the "2<sup>nd</sup> Agreement") with Omega Research Corporation ("Omega") for exclusive licensing rights to sub-license, establish joint ventures to commercialize, use and process organic waste, and sell related by-products in the territory of the Bahamas, Dominican Republic, St. Thomas, St. Maarten, and Grenada ("Additional Territories") for 20 years. We acquired the licensing rights for \$ 50,000. We have the right to purchase from Omega, the APS200 system at a fixed price of \$ 500,000 until December 31, 2014. Subsequent to December 31, 2014, Omega may increase the purchase price at its sole discretion to reflect raising costs of raw materials and labor. We are subject to a royalty of 3% on any sub-licensee fees received as well as on gross sales from by-product sales generated from the APS200 system.

With the exception of establishing joint venture operations with Alpha, during the next twelve months we anticipate incurring costs related to:

- (i) filing Exchange Act reports, and
- (ii) contractual obligations to various consultants

We believe we will be able to meet these costs through use of funds in our treasury, through deferral of fees by certain service providers and additional amounts, as necessary, to be loaned to or invested in us by our stockholders, management or other investors. There are no assurances that we will be able to secure any additional funding as needed. Currently, however our ability to continue as a going concern is dependent upon our ability to generate future profitable operations and/or to obtain the necessary financing to meet our obligations and repay our liabilities arising from normal business operations when they come due. Management's plan includes obtaining additional funds by equity financing and/or related party advances, however there is no assurance of additional funding being available.

We are in our early stages of development and growth, without established records of sales or earnings. We will be subject to numerous risks inherent in the business and operations of financially unstable and early stage or potential emerging growth companies.

#### ***Liquidity and Capital Resources***

With the exception of establishing joint venture operations with Alpha, our cash requirements for the next twelve months are \$ 30,000.

Consulting fees – corporate governance and compliance	\$ 10,000
Other consulting fees	5,000
Audit and accounting	10,000
Miscellaneous	5,000
Total	<u>\$ 30,000</u>

Our contract with Browngate Corporate Services Inc. (“Browngate”), commenced on November 1, 2011 and was subsequently terminated on May 20, 2013. Browngate provided consulting services relating to accounting and corporate governance and also provided office space and telephone and fax rental and also administrative support. The monthly fee for such services was \$ 3,000. We have retained Browngate on a per filing/use basis as a more economical option. Our yearly fees for corporate governance and compliance needs are estimated to be \$ 10,000. Administrative support and other related services are charged on a per hour basis.

We intend to engage the services of an engineer to assist with the maintenance and enhancement of the APS200 system. We have entered into various discussions with engineers however as of to date, no agreement has materialized.

We estimate that our audit and accounting costs to be \$ 10,000 however this amount may vary.

We can provide no assurance that the Company can continue to satisfy its cash requirements for at least the next twelve months.

We expect to obtain financing through shareholder loans and private placements. Shareholder loans will be without stated terms of repayment or interest. We will not consider taking on any long-term or short-term debt from financial institutions in the immediate future. Shareholders loans may be granted from time to time as required to meet current working capital needs. We have no formal agreement that ensures that we will receive such loans. We may exhaust this source of funding at any time.

We are dependent upon certain related parties to provide continued funding and capital resources. If continued funding and capital resources are unavailable at reasonable terms, we may not be able to implement our plan of operations.

Sources of Capital:

We expect to sustain our working capital needs through shareholder loans and private placements. Shareholder loans will be without stated terms of repayment or interest. We will not consider taking on any long-term or short-term debt from financial institutions in the immediate future. Shareholders loans may be granted from time to time as required to meet current working capital needs. We have no formal agreement that ensures that we will receive such loans. We may exhaust this source of funding at any time.

On July 20, 2012 the Company Board of Directors approved convertible loan agreements with four individual lenders to borrow the principal amount of \$280,000 with interest at 10% and the principal due in thirty six months after the loan date. The loans may be converted into Company common stock at \$0.05 per share and must be converted within twenty four months of the loan date, and before six months prior to the maturity date. This borrowing approval is for a future need for funds pursuant to a joint venture agreement. It does not guarantee that the loans will be made or that funds will be available at that time. One of the individual lenders is a related party.

Effective November 26, 2012, we entered into a Convertible Loan Agreement with our Company President (a Non US Person). The loan provides a principle sum of up to \$ 50,000 with no interest and is due and payable by December 31, 2014. The outstanding loan is convertible into common stock at \$ 0.10 per share.
